# MAGEBIT

Junior Web Developer

Come & help us to shape digital commerce across the world!

Magebit is a Latvian company that builds, maintains, and improves online stores worldwide. Within just 6 years we've created ecommerce solutions for brands like Volkswagen, MADARA Cosmetics, Kinetics Beauty, Sabon, and became recognized as one of the top Magento specialized agencies world-wide.

Our carefully crafted solutions are loved and used by millions of people across 4 continents on the daily basis, whether by ordering a new product at the online store or paying by a gift card in the shop.

To run all the amazing projects, we have almost 50 IT specialists in our company.

We are divided into such subteams as:

Projects: team that carries out e-commerce projects from A to Z;

Support: team that maintains and improves online stores for our clients around the world.

Below you will find the list of formal requirements - don't worry if you do not cross all the checkboxes at the moment - the main thing is that you are motivated to learn, interested to work with the new technologies, and open to actively collaborate in projects and overcome challenges - the rest can be learned in process!

You are a perfect candidate, if you have:

- Basic understanding of HTML, CSS, JavaScript and PHP (OOP, MVC)
- Willingness to learn from tutorials and accept help from your Mentor @Magebit
- Ability to work on your own as well within a team environment
- Good English skills

Nice to have, or keen to learn:

Magento shopify	git	Vue.js	React
Some CMS or framework	GIT (Github / Bitbucket / similar)	Vue.js	React JS

What you will do:

If we meet each other on the same page and a thrilled moment of the Day 1 @Magebit comes for you, we will do our best to ensure you a warm welcome and make sure you will get all the necessary knowledge and information: @Magebit, we have a well-thought-out learning system that will prepare you for the job. You will also have your own Mentor, one of Magebit IT superstars, who will support you on the learning way, as well as during your first practical tasks.
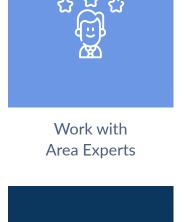

After the learning, you will be able to:

- Write quality code for Magebit clients across the world;
- Work with e-commerce web pages based on Magento and Shopify;
- Create new integrations through various services;
- Work with other Developers and Project Manager to develop and/or maintain online stores.

However, training would never stop - we have various internal tutorials as well as professional certification opportunities to ensure you can skyrocket your IT career!
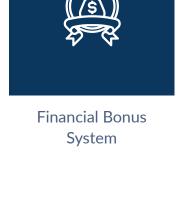

We offer!

| Work with Area Experts	Professional Certification	All Tools for Work	Teambuilding Events
Financial Bonus System	Flexible Working Hours	Free Parking	Great Employee Benefits

How to apply?

Please send your CV or link to the updated LinkedIn profile to work@magebit.com

If you are as dedicated and passionate about web development as we are - Magebit Team is waiting for YOU!
