

14. jūnijā plkst. 14.30

LU Fizikas un matemātikas fakultātes Zēļu 23,

F213 telpā notiks

Herr Prof. Dr. rer. nat.

Klaus-V. Jenderkas

(Professur für Physik, Sensorik und Ultraschalltechnik
Hochschule Merseburg - University of Applied Sciences)

seminārs

" Characterization of sound fields"

Uzstāšanās plāns:

- Presentation of
 - the University of Applied Sciences Merseburg,
 - the city of Merseburg
 - the state Saxony-Anhalt
- Characterization of ultrasound in air fields
 - by Laser Doppler Vibrometry (sLDV)
 - by microphone measurements
- Cooperation with companies interested in the characterization of ultrasound fields (in water and air).
 - Founding programs supporting the cooperation

Uzstāšanās - **angļu** valodā.

Aicināti visi interesenti, studenti un pasniedzēji.
